Assignment 8 Report

1. Introduction

This report is about how to start up a react native expo application from scratch.

2. Development progress

I built the application using 'https://docs.expo.dev/tutorial/create-your-first-app/' tutorial and some advices from 'https://stackoverflow.com'.

The challenges that i encountered is that i use nvm and node versions of 16.32.3 and the latest expo installation requires newer versions starting from 18. So i had some troubles swithcing versions and installing npm packages

3. Screenshots

Wassup

Хирос Джёрни

4. Code description

I used 1 view in which i placed 2 text components and 1 image component which i imported from the react native library.
